

National Science Foundation

Invites you to join the virtual

2023 Frontiers of Ocean Sciences Symposium

Thursday, June 22, 2023

12:30 - 5:00 PM (ET)

Dr. Angelicque White

University of Hawaii

*Ocean observing systems
and the predictability of life*

Dr. Noel Bartlow Jackson

University of Kansas

*The Promise of Seafloor
Geodesy for the Study of
Offshore Tectonic Processes*

Dr. Patrick Heimbach

*University of Texas,
Austin*

*Augmenting a sea of data with
dynamics: oceanography between
sparse and big data science*

Dr. Heidi Sosik

*Woods Hole Oceanographic
Institution*

*Tales of Life and Death in the Ocean:
New Insights from 21st Century
Observing Strategies*

Followed by an **Alumni Panel** discussion with:

Dr. Claudine Hauri

University of Alaska

Dr. Dan Okamoto

Florida State University

Dr. Amina Schartup

U.C. San Diego
