2021 United Nations Decade
2030 of Ocean Science
for Sustainable Development

The UN Decade of Ocean Science for Sustainable Development (2021–2030) is underway with a comprehensive collection of efforts focusing on the theme of “The Science We Need for the Ocean We Want.” OSM 2022 is honored to contribute to this effort as an endorsed Ocean Decade Action by promoting connections among oceanography community scientists, nongovernmental organizations, nonprofit organizations, and the private sector. OSM’s involvement with the Ocean Decade will continue through 2030. This list of events and sessions features some of the many topics covered at OSM 2022 relating to the Ocean Decade. To access all events and sessions, use the search function in the [online program schedule](#).
